STAT

1. Sherman Kent, [redacted] and John S. Warner participated in a briefing of the Far East Subcommittee of House Foreign Affairs from 10:30 until 5 o'clock on the Formosa situation. Approximately ten members of the Foreign Affairs Committee were present including the Chairman, Dr. Morgan. The State and DOD representatives were the principal witnesses and the part played by CIA was very small. No difficulties were encountered and the Subcommittee Chairman, Mr. Zablocki, was very grateful for our assistance. See memorandum for the record for full details.
